BOUNTY LAND.

To Holders of

LAND WARRANTS!!

John L. Hodsdon,

DOW'S BLOCK Hammond Street, Bangor, would call the attention of those who may have *LAND WARRANTS* to sell, to the fact that he has orders for large numbers of Land Warrants from parties in the West, who authorize him to pay for the same the highest market value in CASH. Any person having a Warrant may therefore be assured that he can obtain from Mr. H. the most favorable price for it.

To those who desire to

Locate their Warrants,

he would further say that he has skilled and careful agents in the States of

WISCONSIN AND IOWA,

and in the Territory of Minnesota, who will locate any Warrants on the most desirable lands, without advance pay.

Let all holders of Bounty Land Claims call on JOHN L. HODSDON, Dow's Block, Hammond street

BOUNTY LAND!

B. H. MACE,

Counsellor and Attorney at Law,

WOULD give notice that he is prepared to prosecute all claims to BOUNTY LAND under a recent act of Congress, granting 60 acres to all who have served 14 DAYS in any war since 1790.

Those who have received 40 acres are entitled to 120. Those who have received 80 acres are entitled to 80 more. The Aroostook Soldiers (Militia) are included in the above provisions. Widows or minor Children of deceased Soldiers, are also entitled.

Mr M. having procured many Warrants under the former Acts, and being in possession of the Rolls, feels confident that he can give entire satisfaction to all who may place their claims in his hands

No charge unless successful, and the highest market price PAID to those who wish to sell. *Office in Baldwin's Block, West Market Square next door to A. D. Pains office.*

KENNEDY'S

MEDICAL DISCOVERY.

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR,* from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas

One to two bottles are warranted to cure all humors in the eyes

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum

Five to eight bottles will cure the very worst case of Scrofula

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week—There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to

No change of diet ever necessary. Eat the best you can get and enough of it

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY

REV. WALTER CLARKE,

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing

Sold in trial bottles, 25 cents each, large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine

FEBRUARY, 17th, 1853

To Rev Walter Clark Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years—that bottle entirely removed it

From Rev Jesse Hoyt, Lewiston Falls

REV. CLARKE—Every bottle of the Universal Cough Mixture which you left with me, I sold—and I have several applications for more. As far as heard from, all have been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with tightness of the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it, was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly

JESSE HAYES.

From Mr Fletcher Clark, agent for North Dixmont, Maine.

DEAR SIR—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing, and others who have been doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard, Thorndike, Me

FEBRUARY 1, 1854.

To Rev. Walter Clark. Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief; happily your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured

AGENCY FOR BUSINESS

WITH U. S. PATENT OFFICE,

WASHINGTON.

No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U S Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents

Inventors here not only can obtain their specifications on the most reasonable terms, (generally about 30 per cent less than those of others in the profession,) but avail themselves of the experience of twenty years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar*. Assignments recorded at Washington.

R. H. EDDY.

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting up their applications in a form to secure for them an early and favorable consideration at the Patent Office, EDMUND BURKE,

Late Commissioner of Patents."

[From the present Commissioner.]

"AUGUST 17, 1853.—During the time I have held the office of Commissioner of Patents R. H. Eddy, Esq. of Boston has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law and the rules of practice of the office. The Case of Passmore Williamson.

A citizen of the United States has been imprisoned at Philadelphia for nearly three months, at the discretion of Judge Kane, for a constructive contempt of Court, and for declining to acknowledge himself guilty of such contempt, when he had given simply an answer of plain truth and soberness to a precept demanding of him what he had no right or power to perform.

As there are few people who exactly understand the facts in this case, we will briefly recapitulate them, as given from a source which has never been accused of fanaticism or ultra abolitionism.

In the month of July last, Col. Wheeler arrived at Philadelphia, accompanied by three slaves. By the law of Pennsylvania, those slaves on touching the soil of that State became free. Passmore Williamson was at that time Secretary of a Society founded by Dr. Franklin, for the relief of free blacks claimed as slaves. He informed the slaves in question, that, by the laws of Pennsylvania, they were entitled to their liberty, whereupon they left their master, and went their way, as they had the most perfect right to do. Wheeler applied to Judge Kane, of the U. S. District Court, for a writ of *habeas corpus*, directing Williamson to bring the alleged slaves before his Court, to be dealt with according to law. To this writ, Williamson made return that the persons specified in the writ were not under his control and that he, therefore, could not bring them into Court—and he added that they *had never, at any time, been under his control.* Judge Kane, finding himself foiled in his purpose of returning the slaves to their former owner, discovered in this return a pretext for punishing Williamson. He went into an elaborate argument to prove his return to the writ a contempt of court. He could find no contempt in the allegation that the slaves were not, at the time of the service of the writ, under the control of Williamson, but he claimed that it had been proved that, at the time of their escape, they were so. The insertion, therefore, of this allegation, viz., *that the slaves had never been under the control of Williamson*, he decided to be a contempt of court, for which he, at once, sentenced Williamson to imprisonment. The counsel of Williamson immediately asked permission to amend the return, by striking out the objectionable part, but this permission was denied, and the respondent was hurried off to prison, where he still remains. An application to the Supreme Court of Pennsylvania for a writ of *habeas corpus* to bring before it the body of Williamson, has been refused, on the ground solely, that the State Court could not go behind Judge Kane's adjudication. On this decision we make no comment. It was, perhaps, correct, and seems to be supported by precedents.

Such are the facts in this case. They disclose an instance of lawless oppression and tyranny unparalleled in the annals of judicial proceedings.

The Hartford Courant, after reciting the facts in the case, makes the following among other comments: (in an article said to have been written by Hon. James Dixon, formerly a member of Congress.)

The special boast of our "free and independent" people is their secure enjoyment of personal liberty. No man can be imprisoned here, we are in the habit of asserting, without due process of law. The accusation must be specific—the accused must be confronted by the witness—he must be heard by himself or his counsel—and a jury of his peers must pronounce him guilty, before he can be deprived of life or liberty. This is the theory of our Government.

What is the crime for which Williamson is imprisoned?

Is it in the fact that he announced to the slaves of Wheeler their legal rights? This will not be claimed. On the contrary, it was his right and duty, as a man and a citizen, to give them that information concerning their right to freedom. They were oppressed and ignorant, and it would have been the duty, as has been well said elsewhere, not Judge Kane himself, and of every magistrate, every officer of justice in the State, to give such information, and see that the laws were executed according to the benevolent object and intent, and not suffer the weak through ignorance of the laws in their behalf, to become the prey of the strong, evading and overriding those laws.

Was there any *intentional* contempt of court on the part of Williamson? This is not even claimed by Judge Kane. How could it be, when the respondent desired to amend his return by striking out the immaterial part which was objected to? No, the contempt for which he lies in prison was technical—constructive—made out by reasoning—was, indeed, no contempt at all, as any man of ordinary sense must see. It was a base pretext, and such must be the judgment of the people when the facts are understood.

In point of fact this statement in Williamson's return, that the slaves in question had never been under his control, was strictly true. They were as free the moment they reached, by the voluntary act of their owner, the State of Pennsylvania, as Judge Kane himself. They were not *under the control* of Williamson, in any legal sense, and his return was therefore strictly correct.

The power of Judge Kane to imprison for contempt of Court, is defined by an act of Congress, passed March 2, 1831, the first section of which is as follows:

"*Be it enacted, &c.* That the power of the several Courts of the United States, to issue attachments and inflict summary punishments for contempts of Court, shall not be construed to extend to any cases except the *misbehaviour* of any person or persons, in the presence of said Courts, or so near thereto as to obstruct the administration of justice, the misbehaviour of any of the officers of said Court in their official transactions, and the *disobedience* or *resistance* by any officer of said Courts, party and juror, witness, or any other person or persons, to any lawful writ, process, order, rule, decree or command of the said Courts."

Was Williamson guilty of *misbehaviour in Court*? This is not pretended. *Was he guilty of disobedience* to any writ, process, order, rule, decree or command of the Court? Let us see. What was the writ served upon him? It made it the duty of the respondent to bring the bodies of the alleged slaves into Court, or to make his return of reasons for not so doing. He made return accordingly. He stated that the persons were not, and never had been under his control, and that he could not therefore have their bodies in Court. Now we ask any lawyer to say how, under the act of Congress quoted above, Judge Kane had power rightfully to imprison for *contempt of Court.* There was no pretence of *misbehaviour* in Court—there was no *disobedience* to the writ—which was in effect in the alternative—to bring in the bodies *or* make return of reasons for not complying. If the return was in *fact, false*, that was not *disobedience*. It was perjury, and for that, as is proved by the authority above cited, the respondent should have been recognized to appear at the next term to answer. Clearly there was no shadow of authority for the arbitrary sentence of imprisonment. It was a lawless exercise of judicial power, which would result in the impeachment of the guilty Judge, if the Government of the United States were not under the control of the oligarchy of the South.

The Board of Referees, to whom was referred the matters in difference between the Penobscot and Kennebec Railroad Company and their contractors is made complete by the selection of Ebenezer Hutchinson, Esq., of Athens. It is a strong Board—Mr. Phillip Eastman, of Saco, and Cols. Stanley and Hutchinson. To-day they go over the line of the road to examine the work, and Tuesday next convene at this city.—The question is whether the road is completed in the particulars described in the contract, as the contractors contend it is. If so they are entitled to the balance of the sum stipulated for its construction.—[Mercury.

The Mendelssohn Club.—Our musical people are gratified that these accomplished musicians, aided by Mrs. Emma A. Wentworth, have concluded to return here on Friday evening, and give us another of their delightful concerts. The unfortunate occurrence of the late severe storm at the period of their recent visit, prevented a great many of our people from hearing them, although they had a very good house. We think, that with any tolerable kind of weather, we can warrant them, on this occasion, a very large audience of the lovers of perfect music.

Among the freight on the Penobscot and Kennebec Railroad, brought within the last day or two, we notice about a thousand telegraph poles, from Pittsfield and Carmel, for the Bangor, Bucksport, and Castine Telegraph line. The construction of this line is going on rapidly, and will be completed in five or six weeks. It will be found very convenient for business people on the eastern side of the river.

Claims for Damages.—The parents of Baron St. Andre, late French Consul at Philadelphia, who was killed in the Burlington disaster, have commenced a suit for damages against the Camden and Amboy Railroad Company in the Supreme Court of Pennsylvania. Charles Le Boutallier, one of the injured by the same accident, has also commenced a suit in the same Court.

New Methodist College.—The Pittsburg Conference, at its late session, adopted a plan for the location of a new college at Barnesville, Ohio, and made provision for an endowment of $100 000. The Richmond College has also been placed under the Methodist patronage and control.

Fire in Charleston. On the night of the 3d instant, the store of Reuben Dunning, of Charleston, was entirely consumed by fire. Mr Dunning was in Boston at the time for the purchase of goods. The store was worth about $400. Partially insured in the Penobscot Mutual Company.—Journal 10th.

Supreme Court.—The evidence in the case of True and wife vs. Plumley, was all in last night. The arguments of counsel will probably occupy the greater part of two days. The case is argued by S. H. Blake, Esq., for the defense, and by A. W. Paine, Esq., for plaintiffs.

Yesterday afternoon the broken timber, &c., taken from the old Market House building, and which have long lain in unsightly heaps on the best stores East Market Square, were sold at auction, R. S. Prescott, auctioneer. They bro't $120.—Mercury.

Pictures of Father Sawyer. Mr. J. P. Hardy has executed some very faithful photographic Likenesses of the venerable Father Sawyer. They may be had at Mr Duren's bookstore, at $1 each.

In St. John, N. B., the fall of Sebastopol is to be celebrated on Friday next with extraordinary festivities, and it is expected to be a general holiday.

Three-fourths of the ship Normandy, 1500 tons, built at Bath, by Berry, Richardson & Co., in the fall of 185-, was sold last week in New York, at the rate of $58,000.

An Old Spoon.—An old silver table-spoon bearing the figures 1692, was found among some old silver recently received by Harding Court square. It looked as if it had been well used, for it was well used up.—*Boston Times.*

M. Dupley, a French chemist, has found that worms yield both oil and alcohol. From 100 lbs. of worms he obtained 4 lb. of oil and 5 lbs. of alcohol, applicable to chemical purposes.

Judge Hoar upon Republicanism.

Hon. Samuel Hoar, long known as one of the leading Massachusetts Whigs, and the Commissioner who was sent to South Carolina, several years since, to protest against the imprisonment of colored seamen, is on the Republican State ticket. Among other things in his letter is the following:—

"A President al election is at hand, and we have soon to consider in what way the power of the administration, which is responsible alike for the Missouri Compromise, and for the outrages in Kansas, can be successfully encountered. In my judgment, regarding the question of slavery as the paramount issue in our public affairs, and the aggression of the slave interest the overshadowing danger of the republic, our only hope is in a party having opposition to that extension, and resistance to these aggressions by all constitutional means, and within legal limits, as its leading object. Such a party is the Republican party of the United States, already formed and victorious in several States of the Union, and which the action of the convention at Worcester inaugurated so hopefully in Massachusetts.

The objection of *sectionality* is considered briefly thus:—

"That the Republican party is *sectional*, in any obnoxious sense of the term, we may safely deny. In the first place, there is no danger that any party that can show itself strong enough to carry the North, will not be able to secure a reasonable and sufficient quantity of Southern support. The fact that men in the free States can be found who support the administration, is enough to demonstrate that no party need fear about being national, while it has any prospect of success. But, more seriously, our objects are such as affect the whole national policy of the government, and our action is upon strictly national issues. There are many wise and just men in the Southern States who have denounced the repeal of the Missouri Compromise as impolitic and dishonorable, and who would unite with any manly and vigorous effort to redress the wrong. And, further than this, it is difficult to see why the reasoning that would oppose the organization of a party to resist the encroachments of slavery, because it would be sectional or geographical, must not, to be consistent, oppose all party action on the subject. It is obviously only a difference in mode and degree, and not in kind."

Hanging in Old Times.

A correspondent of the Boston Transcript gives the following incidents:—While John Hancock was Governor of the Commonwealth, Rachel Whall was hung in Boston for highway robbery, her offence consisted in twitching from the hand of another female a bonnet, worth perhaps 75 cts. and running off with it. The most urgent applications for her pardon were unsuccessful. I mention this not to the disparagement of the Governor. He doubtless acted from a sense of duty—thinking it best for the community that the laws of the land—however frightfully severe—while they were laws—should be executed. A lad 18 years of age was hung in Salem for arson, during the administration of Governor Strong, similar appeals in his favor being considered and overruled. Yet the intelligence and the humanity, alike of the Executive and of the Council, notwithstanding the result arrived at in both these instances, were unquestionable.

A girl of 17 was once hung in London for stealing a silver cream pitcher. One Edward Brown was hung in Boston for burglary committed in the house of Capt Oates Goodwin, in Charter street, and stealing therefrom sundry articles. I once owned a set of the Old Bailey Trials (1775, 1825,) embraced in a series of perhaps 68 quarto volumes. The earliest of these volumes contained the details of the trial of the unfortunate Dr. Dodd, for forgery, whose touching appeal for mercy, here recorded, was fruitlessly enforced by the splendid eloquence of Johnson. In a later volume, long after the commencement of the present century, eight separate capital convictions are recorded as one day's job of a single tribunal, the culprits being all boys and girls between the ages of ten and sixteen, and their offences petty thefts.

In one case, a girl, previously of good character was hung for stealing a piece of ribbon. The British prosecutor says in his evidence:

I personally knew her, and was on the most friendly and sociable terms with her. When she left the shop I accompanied her, and offered her my arm, which she accepted. We chatted together. As we reached the corner of a street leading to the Bow street office, I turned toward it. She said she was going in another direction, and bade me good morning. I said to her, 'No! you are going with me! I saw you steal a piece of my ribbon!' She immediately implored me for God's sake to overlook it, and restored to me the article. I said to her that I had lost many things in this way, and was resolved to make her an example—that I was determined to have her life!" and he got it. I can never forget how my blood boiled as I read the testimony of this cold hearted wretch. In view of the judgment of a merciful God, far rather, it seemed to me, would I have been in the place of that poor, frail, erring girl, even on the scaffold than in the place of her heartless accuser.

I rose from the perusal of these volumes, horror-struck with the continuous record of inconceivable legal cruelty. It appears to me that the 70,200 hangings in the reign of Henry VIII. were matched by an equally long list of persons condemned to be hung in the reign of George III. Since that time, much has been done in England by Romilly, Brougham, McIntosh and Sidney Smith, and as much—perhaps more—by kindred philanthropists on this side of the Atlantic.

Later from the Great Salt Lake.—We have the Deseret News for August. The Mormons are busy upon their new Temple. A new settlement has been opened in the Elk Mountains, under the presidency of Elder Alfred N. Billings. John M. Bernhisel, the delegate to Congress, has been re-elected. The new State House is expected to be finished for the occupancy of the legislative assembly in December. There will be a heavy yield of the crops, notwithstanding the ravages of grasshoppers. Salt is now gathered in immense quantities from large lakes, which, during high-water, form part of Great Salt Lake. After the water recedes, the salt remains on the ground from three to six inches deep, at a distance of two miles from the Lake. The salt is clean, white and coarse. A correspondent of the Deseret News gives the following account of a discovery of a new kind of sugar at Provo City:—

"Last week a sweet substance was discovered on the leaves of the trees. A few began to gather it by stripping off the leaves and soaking them in water; in this way Br. A. Daniels made eleven pounds of sugar in one day; it looks and tastes like maple sugar. Many scores of men, women and children are now engaged in gathering it. Many of the leaves have scales of this sweet substance as thick as window glass, and some a deal thicker. Br. Daniels tells me that his process is to cut the twigs from the trees, and after soaking in water, strain and boil, similar to making maple sugar. I have tasted some excellent molasses made from the same substance."

More Superb Beef.—Messrs. Rice & Sargent in their indefatigable exertions to cater to the well regulated appetites of their customers, have just received some of the best specimens of beef raised on the soil of Maine, which they will serve up in a few days. The beeves were raised by Elihu Howes of Aroostook county, and quarters may be seen hanging in their stall, No. 1 Central Market. This beef, together with that brought in by Mr. Gould of Corinth, and pure beef by this firm, is creditable to our market.—*Journal.*

Curious Disclosure.—A foreign correspondent of the Evening Post furnishes some interesting incidents of the quarrel now in progress between the Pope and his refractory "subjects," the Spaniards. We quote:

"Among the curious things which this quarrel has brought to light, is a document showing the sums annually spent at Rome, by Spanish subjects for the purpose of indulgences. These are obtained through the Spanish Embassy; an exact register is kept, and there can be no doubt of the authenticity of the list. I will remark here, that the Ambassador receives a fee upon these indulgences, so that his commissions have rendered Rome the most lucrative diplomatic post of Spain. Don Calderon de la Barca was, it is said, seduced from his agreeable repose at Washington by the promise of this post, as the reward of his temporary labors as Minister of Foreign Affairs.

You will find this curious list in your Madrid papers. By it, it appears that the "permission to have in one's possession and to read books borne on the old list of the Inquisition, or prohibited more recently by the Pope," was sold for the low sum of eighty-six reals. Among these books is Marshall's Life of Washington. When one reflects how much forbidden fruit could be obtained, the price must be regarded as very moderate. Nearly three times as much, however, is required for indulgence of another sort. Whether it is thought well to punish the flesh through the pocket,—or whether the Holy See remembered that *l'ampur rend l'homme genereux*,—certain it is, that for a dispensation from Vows of Virginity," 220 reals is the tariff price.

This means of raising a revenue—by first establishing a law and then selling the privilege to violate it, although known to statesmen as being considered perfectly regular at Rome—has taken many people by surprise, and has not tended to increase the respect in which the Papal Court is held.

Verde Antique Marble in Vermont.—We fancy that Vermonters do not know the prize which has been discovered in one of the most modest of their little mountain towns. Verde Antique marble is incontestibly far the most valuable of any marble in the world; at Roxbury it is found in ledges apparently inexhaustible, at the very side of the railroad track—and what is worth remarking, *another ledge is not known in any part of the world.* Occasionally it is found both in America and Europe, but until the Roxbury ledges were discovered, it was found only in boulders. Even in Italy, where the article was procured in large masses centuries ago, only small specimens are now to be had, and probably most of these are but remnants saved from the ruins of ancient buildings. This Roxbury discovery, then is very remarkable; it places Vermont far ahead of all the rest of the world in marble; and, if properly husbanded, this precious deposit will be a new and fruitful source of wealth to the State. But is this the genuine Verde Antique marble? So say scientific men, so says everybody who happens to see the genuine Italian and the American article together. The commissioner for the new capitol at Washington had no doubt as to the genuineness of the article but he *did* doubt whether there could possibly be enough of it for his purpose, because he well knew that the article has, until now, been found only in small quantities. He is now satisfied as to this point, the order having been filled, and the marble delivered on the banks of the Potomac. We learn that every stone of the first shipment arrived in perfect order, and was accepted, and doubtless such will be the fact as to the whole, inasmuch as the stone is better the deeper it is quarried.—*Vermont Watchman.*

A Pun that was no Joke.—A Frenchman near the Canada line in Vermont sold a horse to his Yankee neighbor, which he recommended as being a very serviceable animal, in spite of his unprepossessing appearance. To every inquiry of the buyer respecting the qualities of the horse, the Frenchman gave a favorable reply—but always commenced his commendation with the depreciatory remark—"He's not look very good." The Yankee caring little for the looks of the horse, of which he could judge for himself, without the seller's assistance, and being fully persuaded, after minute inspection, that the beast was worth the sum asked for him, made the purchase and took him home. A few days afterwards he returned to the seller in high dudgeon, and declared that he had been cheated in the quality of the horse.

"Vat is de matter?" said the Frenchman.

"Matter! said the Yankee, "matter enough—the horse can't see!—he is as blind as a bat!"

"Ah!" said the Frenchman, "Vat I was tell you? I was tell you he was not look very good—be gar, I don't know if he look at all."

A new horse-shoe has been invented by Mr. C. Short, of New London, Connecticut. The peculiar feature is, that the new shoe has not a nail or nailhole in it! Otherwise it is made in the common form, and is held on to the foot by an iron cap, something in the shape of a low cut vamp of a man's leather shoe, or the leather peak of a boy's cloth cap. The iron cap on the hoof is about two inches wide at the toe, but narrower on each side towards the heel. It is so thin as to be a little flexible, and is fastened to the foot by a screw passing through the two ends behind the heel. The lower edge of this cap fits into a groove cut in the outer edge of the shoe, which holds them together, and the screw fastens them both to the hoof. This cap does not come to much wear, and will last out many shoes.

James Brown, a middle aged man, living at 201 Sixth street, New York, was arrested on Thursday night, charged with having seduced Jane Campbell, a domestic at 51 St. Mark's place, under promise of marriage. He subsequently deserted her, and became, shortly after, engaged to a lady in Sixth street. His victim took pains to learn the name and address of the lady in question, and on the bridal day Brown was arrested in the midst of the guests, and notwithstanding his protestations and the entreaties of his friends, he passed the night in the Station House, and the next day was held to bail, by Justice Wood, in the sum of $500 to answer the charge.

A New Bedford Ship Wrecked—Loss of Life.—*Charleston*, Oct. 6. The ship Wm. Penn, of New Bedford, from the Chincha Islands, was wrecked off Hatteras Shoal on the 13th ult. The Captain, Cole, was saved by the schooner C. G. Stratton, and arrived here yesterday. The Captain's wife, Dr. C. T. Botsetine, of Va., and seven men, were picked up by the brig Marine, and were brought to Savannah on Saturday by the steamer Knoxville. Mr. Wood of Nantucket, the first officer, and Mr. Hall of Massachusetts, the second officer, and seven seamen, took to a raft, and have not since been heard from. There were from twenty-two to twenty-four persons on board, two of whom were drowned on the 13th ult.

The Wheeler Slave Case Again. *Philadelphia, Oct. 8.*—An application was made in the United States District Court to-day, on the part of Jane Johnson, the former slave of Col. Wheeler, asking that the habeas corpus issued to Passmore Williamson, to bring herself and children into Court, shall be quashed. John M. Read, for the petitioner, asked that the petition be filed, contending that a habeas corpus must always be formed in behalf of the party whose liberty is restrained, and not for a party wishing to restrain another. The court adjourned before the completion of the argument.

Honduras.—We had news that Truxillo was threatened by robbers or insurgents—and brig Helen Jane, Capt. Nickerson, arrived here, from that port Sept. 17, reports that a party of sixty went out on the 16th, defeated the robber band, took their leader Paz, shot him and cut his head and his right hand off. The town was not entirely quiet, however, as further trouble was apprehended from marauders. The revolution was not ended, though all the revolted departments had yielded to President Cabanas except Olancho and Yoro, against which Alvarez was marching with five hundred government troops. Guardiola, the revolutionist leader, had been killed.—*Boston paper.*

Flour at Reduced Prices. The citizens of Thompsonville, Ct., united in purchasing two hundred and fifty-two barrels of flour from the manufacturers at Rochester, and it was delivered at their doors for $9,63 per barrel. This was saving of two dollars and a half or three dollars on a barrel.

'The Bread League' in Charlestown has been organized and five hundred barrels of flour have been subscribed for. When eight hundred barrels, have been taken up, the agent will proceed to the West to purchase flour. *Boston Journal.*

Newly Discovered Island.—A Nantucket whaling vessel has discovered a new island in the South Pacific Ocean. It is situated about two hundred and fifty miles south of Desolation Island, and the ship which encountered it took from it in less than a week's time four hundred barrels of sea elephant oil. Two other ships are said to be now in course of preparation to return thither, for the purpose of profiting by this valuable discovery.

The steamer Black Warrior brought home from Cuba $50,000 from the Spanish government, as an indemnity to Messrs. Livingston, Crocheron & Co. for the detention of their vessel (the Black Warrior) at Havana about eighteen months ago.

BOOM NOTICE.

IT has been decided to commence rafting at the Argyle Boom as soon as a crew can be obtained—probably on or before next Monday—and owing to the lateness of the season and the great difference of opinion existing among the owners of logs, we shall raft only such logs as the parties want, and turn through the rest into the booms below. Gentlemen will please signify their wishes accordingly, in writing, addressed to Samuel Pratt, Boom Master, or William Averill, Clerk.

Gentlemen will notice that logs not taken at the Upper Boom will not be likely to reach the gap at the Lower Boom this year.

NEW FIRM

IN THE NEW

Central Market House!

CROWELL & PITCHER would announce to their friends and the public generally that they have opened a Meat and Provision Store in Stall No 5, where they intend keeping the best of

Meats, Vegetables, &c.,

Also, in Stall No. 6 they intend to keep the best of

Butter, Cheese, and Eggs,

and such other articles as are generally called for for family use, such as

PORK, LARD, SUGARS, TEAS, COFFEE, Pickles, Mustard, Spices, Saleratus, Cream Tartar, Apples, &c.

They would wish that the public might not get the impression that because it is in the Market House they will have to pay more than at any other place in the city for their Groceries, &c. If they have that impression, we would invite them to call and purchase of us after knowing the prices at the cheap store or stores, and we will satisfy them that we will sell as CHEAP as any one—quality taken into consideration.

AMERICA No. 2, OF ROXBURY. This company of firemen, accompanied by their "machine," arrived at this City yesterday in the steamer Penobscot. They were met at the wharf by a portion of the former members of the old Tiger company, and were escorted through some of the principal streets to the engine house of No. 5, where they partook of refreshments. They were then escorted to the Bangor House, where dinner was served in a style which did Mr. Woodard credit, after which they were dismissed for a short time. Their leisure was spent in visiting the different engine houses, and making the acquaintance of our firemen. In the evening the Americas and old Tigers, together with a few invited guests, where the evening was spent in partaking of a collation, listening to remarks, and "having a good time generally." About 11 o'clock the company were escorted to their quarters at the Bangor House. The East Stoughton Brass Band, an excellent company of musicians, accompany them on their trip.—The Americas are a fine looking, handsomely uniformed body of firemen, and we hope that their visit will prove a pleasant one.

DAGUERREOTYPE NOTICE.

THE subscriber would inform his friends and the public that he still continues to pay his personal attention to producing DAGUERREOTYPE LIKENESSES in the highest perfection of the art. He keeps constantly on hand the improved Stereoscope Cases, which are very beautiful. Also, a large assortment of Gold Lockets, Cases, Frames, &c., of all kinds. Pictures taken as well in cloudy as in fair weather. Don't forget the place—No. 3 Bowman's Block, East End of Kenduskeag Bridge. J. H. DODGE.

Crystalotype Portraits.

DAGUERREOTYPES can be accurately copied by the new Photographic process, enlarged to any required size, and beautifully colored in Oil, Water, or Pastel. Portraits are obtained from the life by this process, requiring no longer sitting than for a common daguerreotype, thus avoiding the serious inconvenience and fatigue of long sittings. Glass daguerreotypes, a new article of unsurpassed richness and durability, are now, for the first time in Bangor, offered to the public! Their great brilliancy and permanency renders them peculiarly suitable for Pins, Rings, &c. The Public are invited to call and examine specimens at HARDY'S Portrait Gallery, near Main-street, a short distance below the Bangor House.

FOR SALE, a large supply of new Cheese, by
sept-7 GEO. W. LADD.

VALUABLE

Mill Property for sale.

THE valuable Mill Property formerly owned by Clarkson Martin, in the town of Starky, Yates County, New York, consisting of a Stone Grist Mill, with two rows of stones, a good Saw Mill, Farm-house and Barn, and twenty-five acres of Land, will be sold on terms to suit purchasers, at a great bargain, to any one desirous of procuring such a location.

The Grist Mill is well built, in good repair, within about two miles of the flourishing village of Dundee, on Big Stream, and has an abundant supply of water at all seasons. It is situated in the heart of the heart of the rich agricultural country on Seneca Lake, unrivaled for its fertility, and accessible by different Rail roads from all parts of the Union, being but a mile and a half from the Canandaigua and Elmira Railroad, and commands a large share of the custom work and flouring business of the surrounding country.

The Saw mill is in good repair, with a Lath Machine thereto attached, and capable of manufacturing a great quantity of lumber and laths during the year. A part of the land is good for agricultural purposes, the balance, lying on the stream, affords, with the dwelling house and out-buildings, a convenient and comfortable home for the mill attendants.

The roads to and from the Mill are convenient and in good order. The title is indisputable, and the opportunity is one that seldom occurs.

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Reduced Prices 100 lbs Baggage Free

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through tickets, including *meals* on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 210 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C L BARTLETT, Agent,

Only 37 1-2 Cents for a Quart Bottle, Only 25 Cents for a Pint Bottle.

Purify the Blood and you have health. Cleanse the Fountain and the stream will be pure

Decidedly the greatest Medicine for the Least Money in the world

The Ladies all like them for they are sure to do them good.

The Root and Herb Bitters have cured the past year,
19,000 cases of JAUNDICE,
11,000 cases of LIVER COMPLAINT,
17,000 cases of DYSPEPSIA,
20,000 cases of BAD HUMOR,
25,000 cases of COSTIVENESS,
13,000 cases of PILES,
12,000 cases of COUGHS and COLDS, and have cured and benefitted more than 400,000 persons besides.

Diseased liver—forsook at the van,
Was fought and conquered by great Langley's plan,
Next gloomy Jaundice, troubling fled the field,
By Langley's Bitters forced at last to yield—
Then dread Dyspepsia left the scene of strife,
Nor dared to face the sterling draught of life.
Bile, Headache, Hiccups, Piles and Costiveness,
These dreaded ills which cause such wretchedness,
By Langley's Bitters, are forced to yield,
While Health and Strength united take the field.
Are you fit to partake of ...when this medicine is used,
No drink alcoholic is by it infused,
For used the bad ... feel anxious alone,
To the tenderest infant it cannot do harm.
Pleasant to take and always does good.

Radway's Regulators.

The Third Great Medical Discovery of Radway & Co.

ONE REGULATOR is sufficient to regulate the Bowels, Liver and Pancreas, to a healthy discharge of their functions

Two will insure a pleasant discharge from the Bowels, at a regular period of time every day

Four to six will purge thoroughly all corrupt and acrimonious humors from the alimentary canal

Important to Pill Takers.

Every one who is in the habit of taking pills will find RADWAY'S REGULATOR the most pleasant, safe, and effectual regulator of the Bowels, Liver, Pancreas, and the most *certain Purifier of the Blood* in use

One of *Radway's Regulators* is superior, in point of medical strength and efficacy, to six of the most popular and best approved cathartic pills

Radway's Regulator.

Radway's Regulators are most carefully prepared from extracts and gums of trees, plants, roots and herbs. There are no pills in use that will act upon the Liver, Pancreas, Bowels, the Salivary Glands and Nerves, so pleasantly and effectually as the R R REGULATORS. No pills can be taken for any length of time with the same safety to the constitution, for, instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowels, and impart strength to every nerve and tissue of the body

Regulators vs. Pills.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills?

We answer that pills, as they are ordinarily prepared and sold by different manufacturers, are generally of two kinds—those which operate on the bowels merely, called purgative pills, and those which excite the secretion of the liver, and are called mercurial or liver pills. Radway's Regulators resemble pills merely in shape, but differ in every other characteristic. They act not only on the bowels, but on the liver, skin, pancreas, and kidneys, regulating each organ to a healthy action. They are not drastic, and never gripe, as most purgative pills do. They stimulate the liver without endangering the patient with salivation, as mercurial pills do, containing no minerals in their composition, they are harmless when used for a length of time. They are tasteless, being enveloped in an elegant coating of gum. 1 to 3 regulate. 3 to 6 purge—good at all times

As a Family Physic.

RADWAY'S REGULATORS are the most innocent, safe, mild and pleasant pills in use. They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint, Kidney Complaint, Jaundice, Head Aches, Nervousness, Melancholy, Diseases of the Bladder,

Female Complaints,

Leucorrhoea, Fluor Albus, Whites and Irregularities of all kinds

Billous Diseases,

Bile in the stomach, Bilious Cholic, Enlargement of the Spleen, and all Chronic Affections of the Liver and kidneys.

R. R. R. REMEDIES are sold by Druggists everywhere.

For great cures performed in a short time by R. R. Relief, see next weeks paper. R. R. R. Remedies act quick—the moment they are taken or applied their health-relieving efficacy is experienced.

HARRISON'S

Columbian Tonic Stimulant

WILL cure all diseases caused by prostration of digestive power. Its action is immediate, as a stimulant, to rouse the vital energy to its healthy force, as a tonic, to sustain and perpetuate that force till healthy secretions are restored and natural power returns. It will remove all mild forms of Cholera, Cholera Morbus, Dysentery, Bilious Cholic, Fever, and Liver and Ague, and in connection with *Harrison's Columbian Vegetable Emetic*, will cure the most severe cases of these and other acute diseases in the shortest possible time. The Dyspeptic finds immediate relief, and permanent cure in its use. For all Bronchial and Pulmonary affections, it has great restorative efficacy.

The alcohol and opium inebriates will find it a perfect substitute for both these disease engendering and health destroying articles. It is an exclusively vegetable composition, and a pure tonic and stimulant, without the slightest disgusting property in its composition or action on the system. The friends of Temperance then will find it an agent of great potency in their cause, and that the vitiated cravings of a diseased appetite under its use will give place to healthy action and natural desire? It is delicious to the taste, and grateful to the sensibilities of the stomach. It may be taken in its present form, a *rich syrup*, or in water, making a *delightful beverage*. As a daily beverage, its deliciousness is *unequalled* by any fermented or alcoholic preparation. It prevents as well as cures disease. Its use is applicable in all climates in all seasons, to all diseases, and in all conditions of life, and from extreme of infancy to extreme of age. Price $1.

HARRISON'S

Columbian Vegetable Emetic

Will withdraw and expel all diseased matter, abd, fluid, or gaseous, from all parts of the system. Besides its emetic properties, it is expectorant, alterative, and anodyne. It acts in each of its modes according to *nature*, relieves the laboring organ ... of diseased matter, and permits a free action of its natural functions to restore strength. It is the only *safe* and *certain* medicine in all severe forms of Cholera, Cholera Morbus, Bilious Cholic, Dysentery, Pleurisy, and every other acute disease. It has great remedial power in all Chronic diseases. In both acute and chronic diseases, assisted by the invigorating and sustaining power of *Harrison's Columbian Tonic Stimulant*, cures are certain. Principles of treatment and directions for use accompany each medicine. Price 50 cts.

G. W. STONE'S
LIQUID CATHARTIC
—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as *Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c.*

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHEA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them—All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

TESTIMONY FROM MAINE.

Capt Daniel Abbott, Brooklin, Maine, July 16, 1853, says: "I was taken sick one year ago last April, upon my passage from Havana to Charleston S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it"

Jos. B Hall & Co, Presque Isle, Aroostook Co, Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs. Jos B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

Salmon Brook, Aroostook Co, Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

DR. J. H. SCHENCK'S

PULMONIC SYRUP,

For the Cure of Consumption.

THE proprietor of this medicine was himself, many years ago reduced so low as to be given up by his physicians and friends in the last stage of Consumption. When all hopes of ever getting well had fled, he was strongly recommended to use a Syrup made from an old Indian receipt which succeeded in effectually curing him. The family physicians and a large number of respectable gentlemen certified to the facts of this case and soon the Pulmonic Syrup obtained a reputation never equalled in that section of the country. Creating, as this case did, a sensation second to that only of a miracle, Dr. Schenck was waited upon by many similarly afflicted to whom he administered the Syrup with the same beneficial results. In fact, such was the notoriety of this medicine that eminent physicians had their attention drawn toward the rising reputation of it, from having witnessed its curative powers, and freely extended the hand of friendship and encouragement to Dr Schenck, and introduced the medicine to the public and used it in their daily practice

No other medicine operates upon the system in the manner that the Pulmonic Syrup does. It produces a healthy action upon the morbid parts by purifying them from disease. It promotes the expectorations, allays the cough, ripens the matter on the lungs, and when it is discharged, it heals the opening that the breaking of the tubercles or abscess produces, and the lungs become sound and resume the performance of their natural functions. It also soothes the irritated portion of the lungs and other organs, and thus restores these parts to health. A superior property the medicine possesses over all others is, that it contains no opium, calomel, or any other deleterious medicine

In 1841 Dr Schenck removed from Flemington New Jersey, to Philadelphia, and commenced the practice of his profession, where he soon acquired a reputation excelled by none, in curing a disease that has heretofore been deemed incurable, and he has since then daily presented to the world incontestible evidence of his success

Both of his parents died with Consumption, which appears to have been an hereditary disease with his father's family. All his brothers and sisters except one, died early of this disease, none of them, but the one brother, reaching the age of twenty.

Thus left nearly the last of his family, he naturally felt some alarm, as one after another were consigned to the silent tomb by this fell destroyer

VOLUNTARY TESTIMONY.

We, the subscribers, residents of Flemington, do hereby certify that we are well acquainted with Dr J H Schenck. He was attacked by disease, which, as we believe, terminated in Pulmonary Consumption; under the operation of which he was reduced so low as to be unable to leave his bed for a long time, and to all appearance was past recovery. He is now perfectly well—his cough and fever have left him, and we feel justified in declaring it as our belief that these salutary effects have resulted from the use of the Pulmonic Syrup.

At this time there is not a town or village in the United States, but in which can be found more or less wonderful cures by the use of Schenck's Pulmonic Syrup.

Dr. Schenck is the inventor of the celebrated Respirometer for examining and detecting all diseases of the Lungs, Heart &c.
